

## **Chairman's Report for July 2 2018**

Welcome to everyone and thank you for coming on this exceptionally hot evening. My report is really just a list of other people's meetings and so is relatively short. You will be pleased to know, I am sure, that the unpleasant incident which happened during our last meeting has now been dealt with by the Police. Also, I have here some membership forms. I understand that two people requested these at our last meeting, but we unfortunately, had none left.

1. Surrey CC has (their words) drafted an ambitious vision for Surrey 2030. CC Leader, David Hodge will be coming to an informal meeting of the Local Committee of MVDC in Pippbrook on Wednesday, 18 July at 10 am to hear the views of all who come. There are also two other similar events, one in Reigate and another in L'head, the former on 9<sup>th</sup> July at 9am. (No location mentioned) There is also a survey to fill in online – not long!

In the survey, I mentioned the state of the roads wherever I could, but this has been amplified by a letter I received from a member, listing, with photographs, all the shoddy and slapdash work being allowed to happen in our High Street. See notice board in the ADH.

2. The Surrey Downs Clinical Commissioning Group is holding its AGM on 4<sup>th</sup> July from 6 pm to 7.15 at their headquarters in Cedar Court, Guildford Road, Leatherhead. You will hear how they have been trying to improve their work and they will also be presenting their financial accounts. They would like to be told you are coming. (01372 201732).

3. The Duck Race may or may not run this year because of a nest and because the river levels are so low. The other events are likely to continue and it will be called a Community Picnic.

4. I would like to warn anyone dealing with company business that there is a scam going round and the Companies' House would like to know.

5. You may remember that Sheila Baddeley from Belmont Road has offered to be our Minuting Secretary. Our previous secretary has kindly offered to help out where necessary, but I would be most grateful for yet another volunteer.

I have also put a phone number and an email address on the board in case you would find either one useful.

And now for the first of our Reports:
